

DOWEL How it works

Hi 🙋 I am DOWEL. I am here to help your teams and groups to develop meaningful and engaging conversations. 🤝

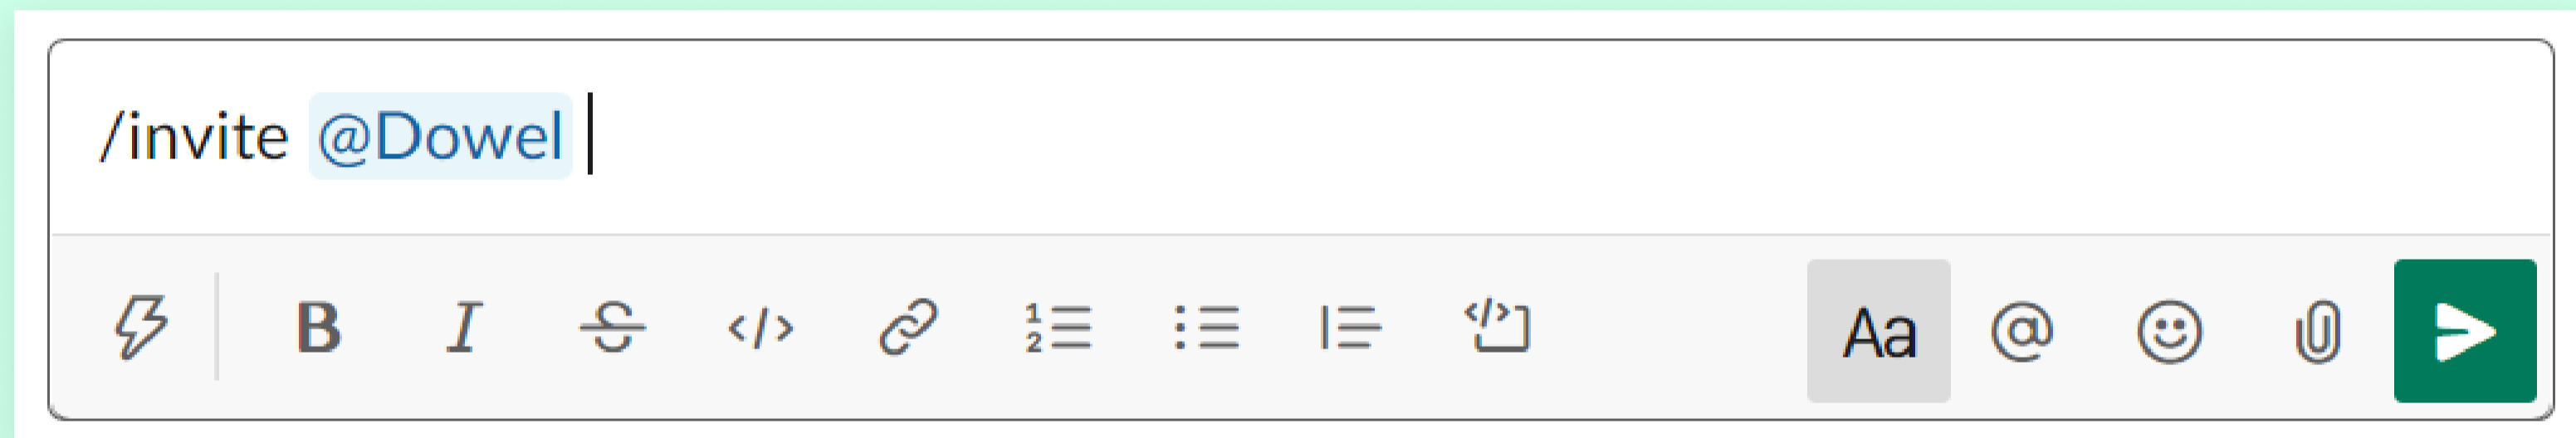

Step 1 Adding Dowel to your Slack team 😎

To use Dowel your team needs to use Slack. Once you have a Slack team you can add Dowel to your team. No need to create accounts, passwords, teach people how to use it, or add people to Dowel to get started.

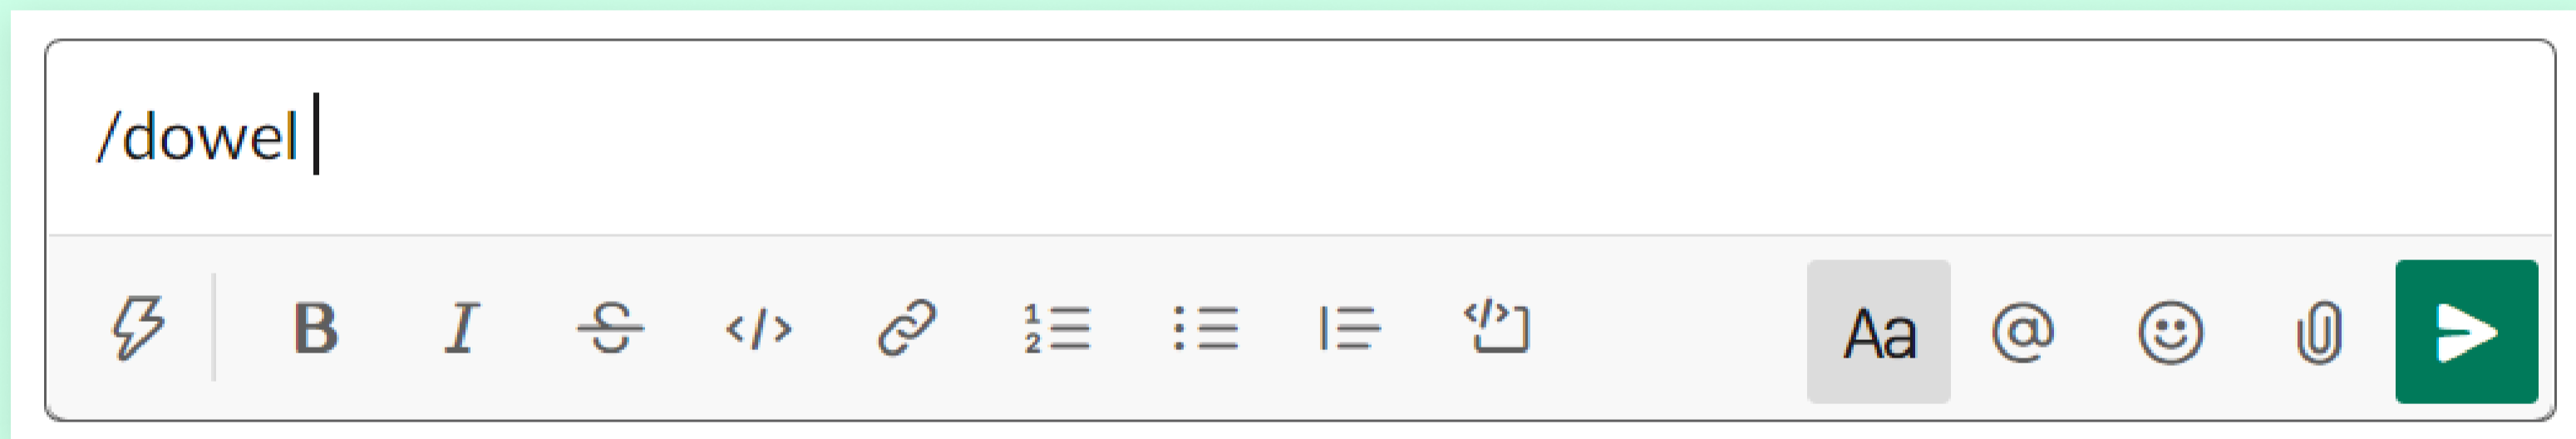

Step 2 Adding Dowel to other channels 🥰

Dowel only works in channels it's been invited to. Go to the channel you'd like to add it to and type : **/invite @dowel**

Step 3 Calling Dowel 🤖

Type `/dowel` and Dowel will provide the questions that help you to understand your team.

Step 4 Choose your preference on interesting questions at channel

Input your question just in a minute, and it lets your team know more about you.

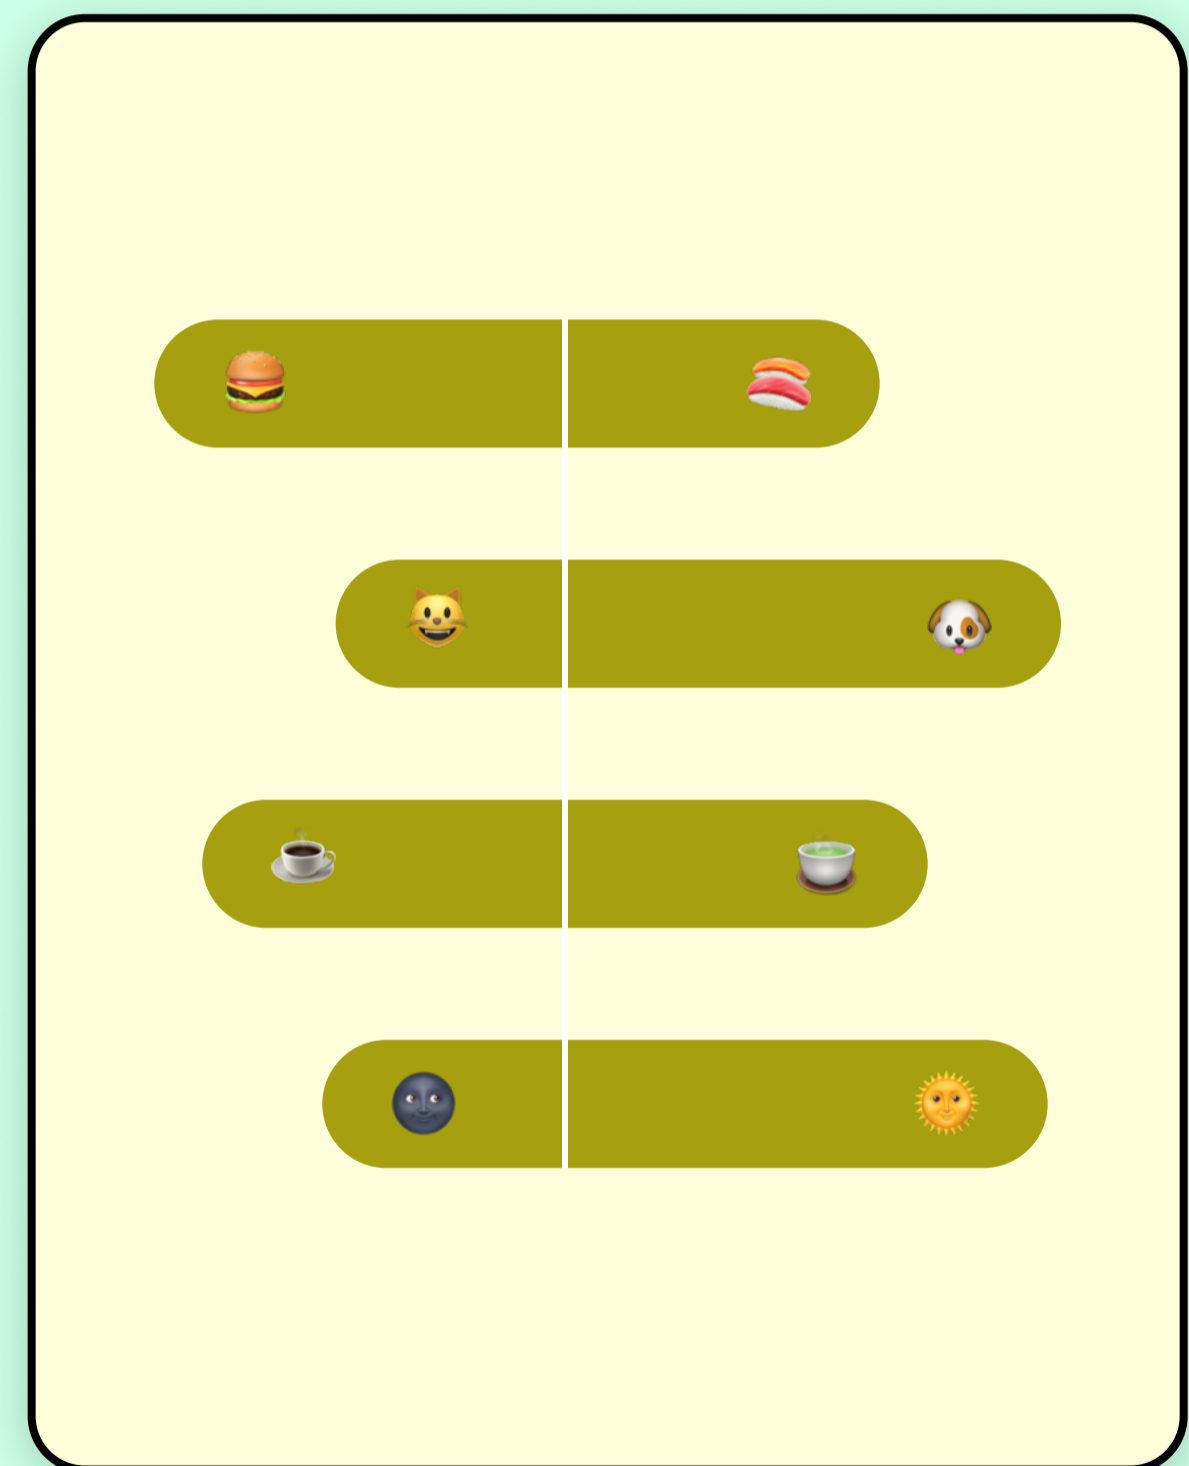

Drink at work?

A yellow rounded rectangle containing a poll question. At the top, a dark green rounded button contains the text "Drink at work?". Below this, two circular options are shown: a green circle with a white tea cup icon and a dark green circle with a white coffee cup icon.

Step 5 See the outcome by chart made by Dowel 📊

Dowel will create an interesting and visualized chart by your reply.

Step 6 Find and dig more common interests

That's it! You are ready to go and start to engage with your team.

Hi 🙌 That was a great one!!

Yea! Let's grab a beer ASAP. this is urgent lol

Welcome and enjoy to be the team!

How about this weekend? sounds good?
